# Deceased:

An indication that the person is no longer living, given by a date, time of death, or a Boolean value which, when true, indicates the person is deceased.

Example:

Patient #deceased #06/06/2016 .

Process:

1. Start with the #deceased tag.

2. The #date of death is the date of the patient's death

Additional examples:

Patient #deceased on #06/06/2016

Case of the #deceased tag can vary.

Free text can be entered between the #deceased and date value.
